Supervisors foreclose on residential center

BY TRACI BONNEY

The board of supervisors is planning to foreclose on the Bay St. Louis Residential Care Center.

Board attorney Gerald Gex claimed the care center has a number of past due payments. He said he plans to contact the Bank of Mississippi, which holds the first mortgage on the building, and to start a legal notice in the newspaper October 8. The notice will run four weeks, he added.

Gex said the financial problems between the county and the care center have been ongoing since last November. He

stated that although he understood the care center's administrators had been dealing with several matters during that time, he nevertheless recommended that the board not wait any longer to take action.

The board authorized Gex to proceed with the foreclosure.

DISPOSAL LAW

The board passed two resolutions concerning the recently passed clean water act, which affects individual onsite wastewater disposal systems in the county.

One resolution recommends that the county floodplain management regulations be

amended to require that development permits not be issued unless and until the applicant furnishes proof of submission of a notice of intent to the State Department of Health. Gex said this resolution is simply in compliance with current state law.

The second resolution requests that the State Legislature amend Senate Bill 2562 so that individual alternative waste disposal systems (other than septic tanks) can be put on individual lots throughout the county, which would allow lot owners in the south part of the

Highway 603 four-laning to begin soon — Vickery

BY TRACI BONNEY

By July of 1994, Hwy. 603 should no longer be the two-lane traffic snarl it often is now.

SCI Inc. of Biloxi was awarded a \$7,882,180.35 contract last week from the Mississippi Department of Transportation for the construction of two additional lanes along seven miles of the highway from Hwy. 90 to Stennis Airport Road.

SCI's Mike Vickery said work on the road should begin in about a month.

As to personnel, he said, "We have several people from Bay St. Louis and Pass Christian working for us already, but we will be hiring additional personnel, and we intend to hire as many as

possible from that area.

"We'll also be looking for owner/operator truckers to haul dirt and materials, and we'll be working to secure sites where we can secure the dirt we will need."

"There will be some inconvenience to motorists while the work is underway, but we will try to do everything we can to minimize that."

Transportation Commissioner Ronnie Shows asked that motorists observe all construction advisory signs while driving through the project, and be aware of workers and equipment in the project area.

America's Park update

Developers waiting on DeLisle Improvement District bill

BY JACQUI COCHRAN
Stephen Guice, president of Mississippi Motorsports Park, updated the county board of

supervisors last week on plans for the development of a 15,000-acre park. Guice said the 1992 House

Bill 1528, which will create the DeLisle Improvement District, has been based on the Florida 1967 Reedy Creek District bill, today known as Disney World.

The bill will outline the issuance of debt investments and securing obligations, according to Guice. It will authorize the establishment of water, sewer, fire, and waste disposal services, along with road designations and speed limitations.

Board attorney Gerald Gex reminded Guice that Kiln Water and Fire District already exists, and developers must not attempt to supersede its authority.

Guice commented over half of the development is planned for Hancock County north of I-10 from Diamondhead to just west of Highway 603, with 3-3 1/2 miles of the area extending into the buffer zone.

Along with the creation of a theme park, Guice said, a \$60

million speedway, comparable to Florida's Daytona will be constructed; a botanical garden; and an audio/visual studio and possible technical school are anticipated.

He stated, "I wish to get something straight, there has never been a proposal for a plant that manufactures plastics. There has been a proposal for a plastics forming plant, which involves the heating of plastics and placing them into forms. There is no hazardous waste involved in the forming of plastics."

Guice and his associates told the board they will not seek tax exempt status.

"Bonds will be sold both publicly and privately," he stated. "All revenues will be pledged in support...neither the county nor state can be pledged to responsibility for the bonds."

"The district will be governed

Telephone books to be recycled

BY ELLIS CUEVAS

Hancock County will be participating in a telephone book recycling drive during the month of October.

The drive is sponsored by the Hancock Chamber of Commerce's Beautification Committee, BFI, South Central Bell and others along the Mississippi Gulf Coast.

This month, you can recycle your old telephone directories by dropping them off at the collection bin in the Chamber office, 412 Highway 90, No. 6, Colonial Plaza, Bay St. Louis.

Recycling makes a difference, as every ton of recycled telephone books saves 3.3 cubic yards of landfill space, said Ellis Cuevas, Hancock Chamber of Commerce Beautification Committee chairman.

Home rehab program nixed

BY TRACI BONNEY

Neither Bay St. Louis nor the county will participate in a statewide home rehabilitation program this year, because neither can qualify under the program's guidelines.

The county board of supervisors passed a resolution Monday formally objecting to the guidelines of the Home Investment Partnerships, or HOME, Program. The supervisors, in voting for the objection, voiced their frustration at not being

able to find in any of their districts an area that meets the guidelines.

City official Mike Cuevas said Tuesday that Bay St. Louis will not participate in the program for the same reason.

"We could not find one area in this city where 70 percent of the homes in the project area qualify for assistance," she stated.

Consultant Tommy Gregory of Gregory and Associates in Greenwood agreed with local officials that the strict guide-

lines set forth for the HOME Program are frustrating.

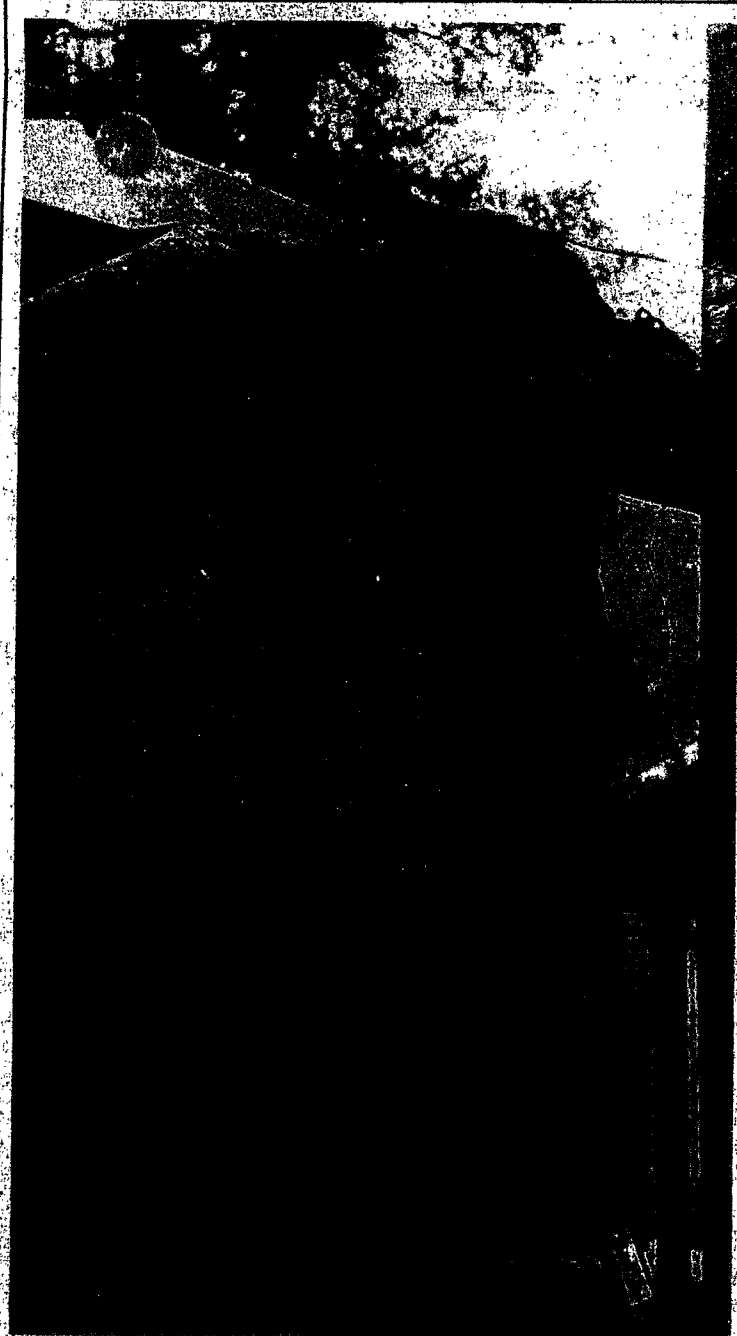

"We have been waiting for this program for two to three years, and when it hits I can't get any project areas set up anywhere in the state, even here in the Delta."

Housing and Urban Development officials are beginning to realize that the rules are creating more problems than they are solving, he said. "Even the people at HUD are saying to object, write letters, call."

The HOME Program is making some \$10.6 million available statewide for rehabilitation of residences owned by their occupants. The program's intent was to assist low- to moderate-income homeowners in bringing their residences up to current safety and health codes.

However, the program guidelines mandate that 70 percent of an urban project area qualify

BY JACQUI COCHRAN

Lynn Lofton, public information officer for the State Highway Department reported the delay of the I-10 Pearl River overpass Wednesday.

The lane closure was planned for October 1, in conjunction with bridge repair work scheduled through May 1993.

Lofton said recent rains have held up work. The contractor now expects the lane closure to begin mid-October.

county to develop their property for residential use.

The supervisors unanimously approved both resolutions.

The board also authorized Carlos Cordon of Cortech to update the Hancock County portion of a tri-county sewerage system study completed in the early 1980s.

Gex asked the board to retain Cordon for the task so the supervisors will have the information available when they begin making application for federal grant monies to construct a central sewer system throughout the county.

PERSONNEL

East Hancock Fire Commissioner Ethel Breaux requested that the board accept the resignation of commissioner Anthony J. Davion, whose schedule has prevented him from attending several meetings. The board agreed.

Breaux then asked that the board approve the commission's recommendation to appoint former fire marshal Jay Marsh to fill Davion's term. The board approved the recommendation.

The supervisors also appointed Frank King to a five-year term with the Diamondhead Water and Sewer District. King had filled an unexpired term for a former member, and the district wanted to retain him for another term.

FINANCES

The board amended the FY92 budget to reflect the final expenditure figures, and also amended the FY93 budget to give the Human Resources budget \$3,000 that had been unintentionally taken away because of a typographical error.

Prima Plache's request that the supervisors appropriate \$102,000 for a city-county library expansion construction project was approved. The money for the project had been earmarked in the county budget.

The board also approved authorization for the library board to pursue federal grant money to help fund the project.

The supervisors declared an emergency for the repair of a track dozer that is used at the

county's two trashfill sites. The low quote for the repair was \$15,253 from Norwell.

The board declared the repair an emergency because the bidding process would take at least 30 days, and the county could find itself in violation of Department of Environmental Quality regulations in that time if the dozer remained broken, according to assistant road superintendent Tommy Moran.

The board also voted to authorize advertisement by the Sheriff's Department for a sniper rifle, and to accept a bid for basketball goal equipment from Sportsman's Corner for a Lakeshore recreation project.

The supervisors had accepted a bid from a Clarence Taylor for the equipment because it was lower and Taylor said he could install the equipment. A.L. Franklin, one of the park commissioners involved in the project, said Taylor will be unable to complete the obligations of his contract.

Franklin asked the board to accept the Sportsman's Corner bid, which was the only other

one submitted, even though it does not include installation.

The supervisors granted Franklin's request.

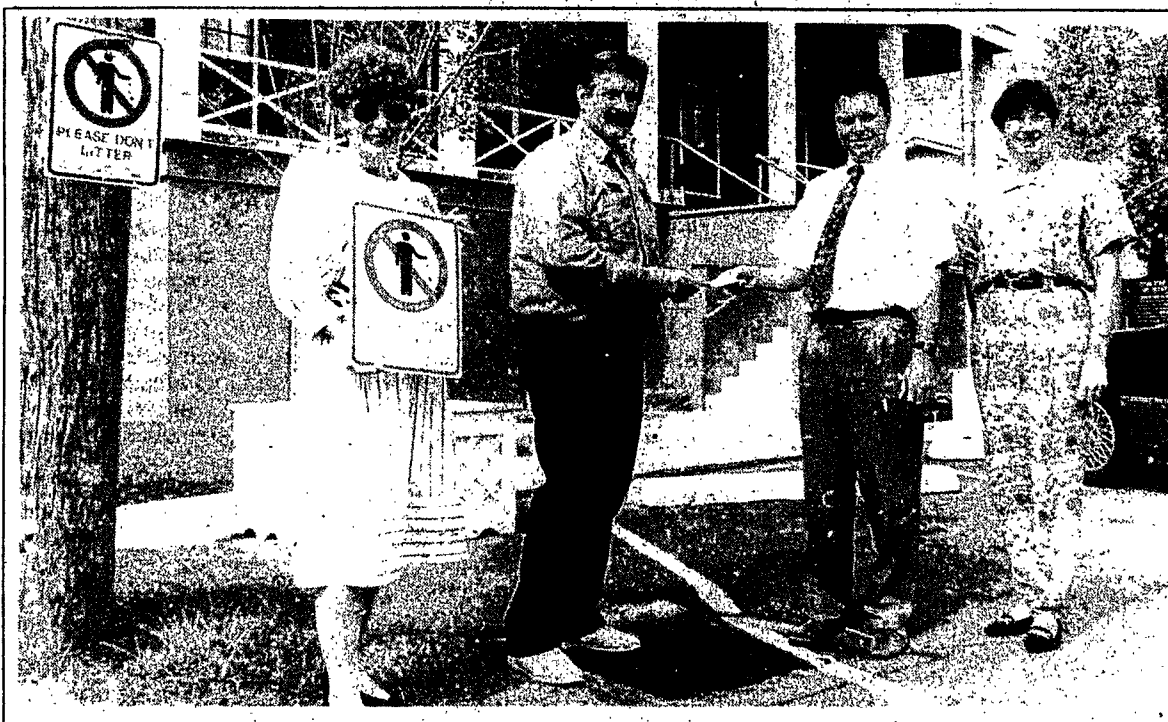

OTHER BUSINESS

The supervisors approved the abandonment of an unopened portion of Arnold Street to Robert Genin, with the understanding that the county can go onto the property as needed to clean the natural drain.

The board passed a resolution objecting to guidelines set forth by the state for a residential rehabilitation program, stating the guidelines virtually eliminate rural homeowners from qualifying by requiring the supervisors to find five houses in one block within their districts.

Circuit Clerk Pam Metzler presented a list of nine names to be put on the November 5 ballot for election commissioner posts. The supervisors approved the list's inclusion on the ballot.

After finishing business, the board adjourned to 9 a.m. October 5.

"QUOTABLE QUOTES"

By Ellis C. Cuevas

Hancock North Central's Brett Favre seems to have the Green Bay Packers rolling, tossing two touchdowns in consecutive weeks for victories.

I am sure Brett's parents, Hawk head coach Irvin and Bonita Favre have to be proud of their son's achievements in professional football.

Brett, a backup quarterback at Green Bay, was summoned from the bench against Cincinnati last week. Favre engineered a scoring drive of 92 yards after the Bengals added a field goal with only 1:07 left on the clock and no timeouts for the Packers.

He engineered a drive finalized by a 35-yard pass for a TD. The PAT gave the Packers a one-point victory over Cincinnati, handing them their first loss of the season.

On Sunday, his first start for the Packers, Favre tossed two touchdown passes in a 17-3 victory over the unbeaten Steelers.

Keep up the good work, Brett, you have a lot of folks along the Mississippi Gulf Coast pulling for you.

Hancock High was the only local team to place another win on their record in high school football action Friday night.

This week Hancock will journey to d'Iberville, who dropped a close one to state ranked No. 10 Harrison Central last week.

Bay High's Tigers will try to get back on the winning track with a long drive to Purvis, while St. Stanislaus will motor to Picayune.

Bay High held East Marion, the 1991 champs, tied until the final minute Friday night at J.D. McCullough Stadium, losing on a field goal 10-7. It was East Marion's fourth victory of the season.

Bay High, 3-1, will try to get back on the right track this week when they are the visitors at Purvis. Don't let the 3-1 record fool you, as it could have been 4-0, the way Bay High has been playing this year.

One must remember, too, the Tigers had a touchdown called back last week, and that could have been the margin of victory.

Rocky Gaudin should have his Tigers 'fit as a fiddle,' as the saying goes, come Friday night. I am hoping there will be a big crowd of Tiger fans in the stadium at Purvis.

The Hawks should have their hands full Friday when they tangle with the d'Iberville Warriors.

This, too, will be an away game. D'Iberville, who lost by a touchdown to Harrison Central, ranked No. 10 in the state, will be fired up for the Hawks.

The only blemish on Hancock's record is a loss to Harrison Central several weeks ago.

Knowing head coach Irvin Favre, he will make sure his Hawks are ready, and it should be a very competitive game, too.

St. Stanislaus will journey Friday night to Picayune to see if their luck can change.

The Rock-A-Chaws are seeking their first victory of the season, and the young Rocks appear to be improving with each game.

To be realistic, Stanislaus will have to have a super effort in addition to many breaks to tame the Maroon Tide of Picayune.

Remember, all games start at 7:30 p.m. Your local teams need your support.

Hope to see you at the game.

Guess I have to get on my 'soap box' once again on an old subject of mine.

One thing I have noticed that hasn't changed, is there are persons driving vehicles in Hancock County with only one headlight.

Friday night, a little after 11, I drove Highway 603 from Interstate 10 to U.S. 90 and met two autos, each with only one headlight.

Highway 603 is no fun to drive, and it is very dangerous under normal circumstances. The number of accidents prove this.

Vehicles operating with only one headlight on a rainy night add to the danger.

It seems some action should be taken by the Highway Patrol to put an end to vehicles using Highway 603, or any highway or roadway, with improper headlights.

A ticket or two may get some folks' attention and may even save a life.

Anti-litter hotlines set up in Bay, county

Hotlines have been implemented for people in Bay St. Louis and outside the city limits to call if they see someone toss trash out of a vehicle.

If you see someone do this, memorize or write down the vehicle's license number and call the appropriate hotline number. A recording will instruct you as to how to report the violation.

After the vehicle registration is traced, a letter will be sent by the appropriate authority to the vehicle owner. The letter does not accuse the vehicle owner of throwing the trash, but states that an occupant of a vehicle which is or was owned by that person was seen throwing trash out of the vehicle.

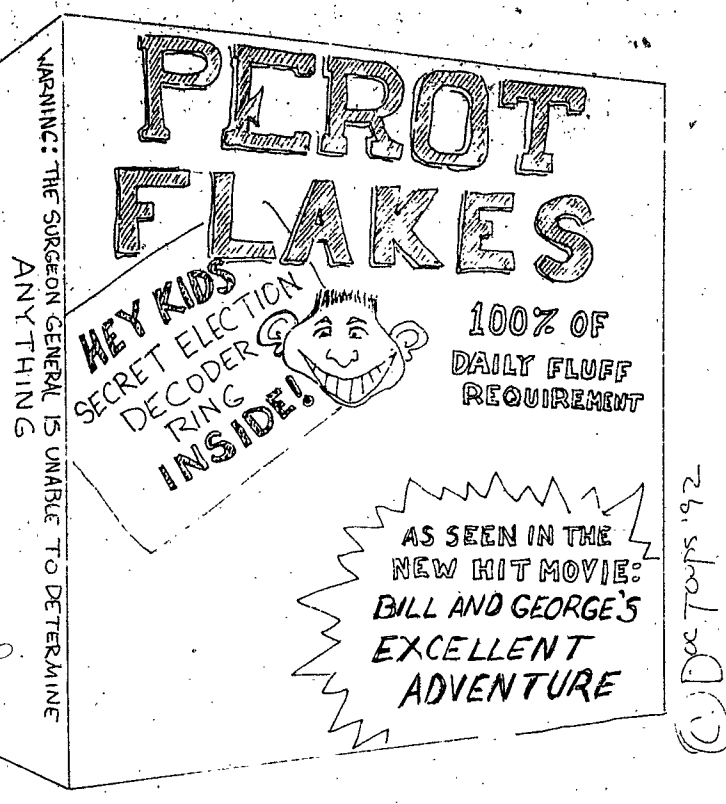

The letter states that no charges are being filed at the time the letter is issued, but also reminds the person that littering is illegal and carries a \$250 fine.

The numbers to call are 255-6234 for a violation witnessed in Bay St. Louis, and 255-6246 for one witnessed in the county.

WASHINGTON REPORT

By Senator Thad Cochran

Senate passes defense funding bill, includes projects in Mississippi

The U.S. Senate has passed the bill to fund Department of Defense programs and activities for the fiscal year that begins Oct. 1, U.S. Senator Thad Cochran said.

The Senate-passed bill provides more than \$5 billion for programs and activities in Mississippi, said Senator Cochran, a member of the Senate Appropriations Committee.

"Defense activities, including the construction of ships and aircraft in Mississippi, will continue to make a major contribution to our state's economy," he said.

Among the major items for Mississippi in the bill are the following:

LHD-1 Class Amphibious Support Ship—\$1.05 billion for this Navy ship to be built at Ingalls Shipbuilding at Pascagoula.

DDG-51 Guided Missile Destroyers—\$3.3 billion for four Navy ships. Ingalls Shipbuilding Company at Pascagoula is one of the two shipyards that builds these ships, and

C-130 Aircraft—\$741 million for 21 aircraft for the Air Force, Naval Reserve and Army National Guard, which are manufactured in part at the Lockheed plant in Meridian.

The bill also includes funding for Air Force and Navy pilot training programs, research activities, and the Mississippi National Guard, Cochran said.

The bill also provides funds for the hurricane reconnaissance fleet at Keesler Air Force Base in Biloxi, and \$7.5 million for the Gulf States Counter Drug Initiative, which includes a training facility in Mississippi.

Also included is \$43 million for the Department of Defense High Performance Computing Line, which will support the supercomputer at the Waterways Experiment Station in Vicksburg.

Senator Cochran has been named to the House and Senate conference committee that must resolve differences in the two versions of the bill.

LETTERS TO THE EDITOR

Waveland citizens must be on agenda to be heard

Dear Editor,

I have received many phone calls from residents of Waveland concerning the \$7.50 garbage collection fee. All callers were opposed to the fee. Several stated they have signed a petition opposing the charge. Others said they will or have spoken to their alderman.

But people, if you are serious about having your government address this issue, you must request to be placed on the agenda before 5 p.m. tomorrow, Oct. 2.

You must get on the agenda to express your desires, on the record, and let this administration know that you want responsible fiscal management. If you do not come forward and get your name placed on the agenda for the Oct. 6 meeting, you might not be recognized and will not be allowed to speak your mind on this important issue.

Only the budget was adopted on September 16. This budget was adopted with a 3 to 2 vote. Alderman Colson and I voted no; Alderman Rappold and Hubbard voted yes. Mayor Frilot cast the deciding vote to adopt this budget.

Now Mayor Frilot must pass an ordinance giving her the vehicle to collect this \$207,000 in fees. Mayor Frilot stated at the September 15 meeting that this fee was forced on us by the federal government. No, this is not correct; page E-6 of The Solid Waste Management Plan for Hancock County, prepared by Compton Engineers of Pascagoula states, "...establish user fees to finance the solid waste plan by 1995." So why collect this fee two years in advance?

The minimum for 7,000 gallons of water and sewerage plus the waste water district fee is \$41.40 per month. If the full \$7.50 increase is passed on to you, your minimum bill will be \$48.90 per month or \$586.80 per year.

Last October 1991, Mayor

Frilot imposed two additional dollars to your sewerage water bill and stated in the public meeting this was the fault of the previous mayor. Investigation on my part proved this to be untrue.

At that special meeting Mayor Frilot requested a motion from the aldermen to pass a \$6.50 garbage fee. No aldermen would propose the motion for her. Yes, the \$2 fee was passed on to you, the citizens. I voted no on this issue. Just as I voted no on: stipends, expensive carpets, draperies, chairs, desk, mobile phones, golf carts and the appointment of personnel. No one was even given the courtesy of being informed as to their salaries, hours, or as to whether we have the money in the budget.

In the '92 fiscal year budget, we budgeted \$43,000 for the restoration of the civic center, \$29,000 for paving of city streets, \$15,000 for drainage in Idlewood. Not one dollar was spent—Why? Could it be that these projects are going to be saved for an election year?

I am concerned with the explosive growth of our general government. General government is a specific item on the budget and includes things like the mayor's salary, aldermen's salary and general administrative salaries of city government.

Just a look at the section of the budgets called general government from 1991 through 1993 is cause for alarm; 1991—\$488,034; 1992 (amended)—\$709,143; 1993 (proposed)—\$939,426.

The proposed budget is only a scant \$36,642 short of doubling in two years' time.

People, if you are told that this doubling of the budget is due to better accounting procedures, let us hope that we don't have to run our own household by the same accounting procedures as we will all go broke.

Do you feel children should have the right to divorce their parents?

"Yes, some parents don't deserve to be parents."

**Gloria Dean

"In the Florida case, yes, for others, it depends on the situation. If it is for something like their mother is forcing them to go to school and the child just does not want to go—of course not."

From Echo Staff Reports

BURGLARY

A report of a burglary Saturday at the Kiln D & K convenience store led county deputies on a high speed car chase which ended in the arrest of a Baton Rouge juvenile and an 18-year-old.

According to county investigator Matt Karl, neighbors of the Kiln D & K store heard a burglar alarm go off at about 1 a.m. Saturday and called the sheriff's department with a description of a white vehicle and two subjects leaving the store parking lot.

Karl said, "Deputies Albert Biehl and Allen James were in the area, and after hearing the report on the radio, James spotted what he thought to be the vehicle heading south on Hwy. 603 just north of the I-10 exit.

"James followed the vehicle, closing in and signaling for the car to stop. Instead the car took off and entered I-10 heading west. "Biehl joined in the pursuit which turned into a high speed car chase, leaving Mississippi and entering Louisiana."

Karl added, Louisiana troopers, St. Tammany Parish deputies and Slidell police formed a road block just outside of the I-10/I-12/I-59 junctions.

"The car tried to go around the road block," Karl described, "and instead got stuck in the median.

"One of the two males apprehended was taken by officers and the other was stopped by a police dog.

"They are in custody in St. Tammany Parish."

Charles Wood, 18, is charged with illegal possession of stolen property and flight from an officer. His bond is \$75,000.

Charges remain pending on both in Hancock County, according to investigator Nathan Hoda.

No one hurt in Friday fire

Fire Marshal Richard Pate reported that a small wood frame house in Bay Side Park sustained heavy smoke damage and some flame damage Friday during a kitchen fire.

Pate said Terrell Lee, his wife Melissa and their child were all at home when the fire started around 5:30 p.m. that day. Mrs. Lee was frying chicken, and a grease splatter caught a curtain on fire. She left the kitchen and the family vacated the house immediately.

The Bay Side Park volunteer fire department responded to the call.

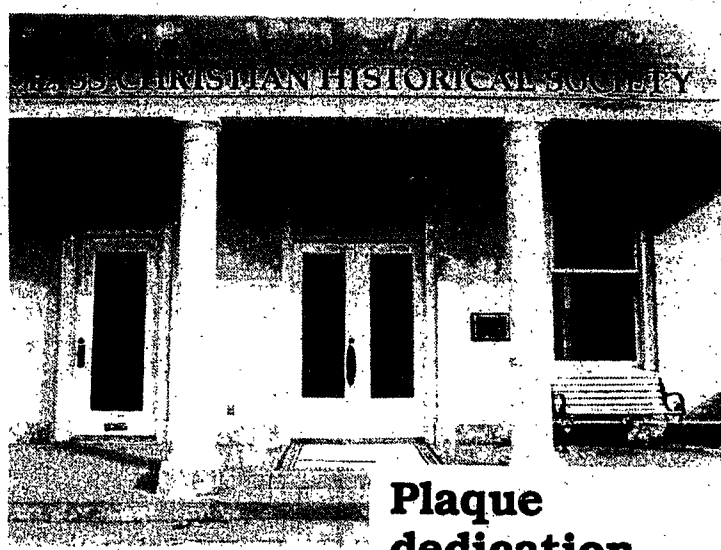

Pate said no one was injured.

This I believe.....

I think that Mississippi Senate Bill No. 2562, which deprives people of the use of their own property, is another case of overreaction by our government against the people.

I feel we have many Big Companies discharging Chemicals and Sewerage in our waters all over this state, and nothing is done to control it.

I feel our Senators did not look out for our own people.

When elected your Senator, I will work to change this Bill and work to come up with a solution that will not deprive the people from the use of their property.

I will introduce Legislation to take the pardoning and bonding powers away from Judges and Attorneys on major offenses.

Our Grand Juries need to determine who should be pardoned and how much bonds should be set for major offenses. This would be giving the power back to the people.

I feel that anyone caught selling drugs the first time should have to serve a minimum of five years in prison (no pardon), a second offender, a minimum of ten years, regardless as to what judge they appear before or attorney they hire to represent them.

COOKING UP A STORM

By Katy McGuire
Caire

It's only in comparatively recent times, say a few generations ago, that many cooks in our country have learned to savor the taste of broccoli, that "kissin' cousin of the cauliflower." Broccoli, also in the same family as the cabbage and the brussels sprout, is tasty in many forms.

Broccoli has been a favorite with Greek and Italian cooks for more than 2,000 years, we are told. Thomas Jefferson grew broccoli in his gardens at Monticello in the early 19th century; but there are few mentions of broccoli, or "brokolo," somewhat like asparagus in recipe books at the turn of this century.

Italian families brought seeds of broccoli with them when they came to America from the homeland, and soon the green clusters of buds sprouted here and there in the environs of New York and Boston, long before this vegetable was known, much less taken up in the country as a whole. It wasn't until the early 1920's that commercial growers began the production and commercial distribution of broccoli in America.

I can never decide which way I like broccoli best, raw or cooked. It's tasty, raw, as part of the "crudites" or vegetables served with a creamy dip, or other sort of dip, before dinner or at appetizer-cocktail time. It's also tasty, raw, in green salads, and is an addition to stir-fried dishes. I like it also crisp-steamed, with a lemony sauce, or in a cheese sauce.

Incidentally, but important,

however you're serving broccoli, stick to these rules: First, discard, of course, the tough leaves and tough parts of the stalks. And, if you're cooking the broccoli, split the stalks in half or into quarters, so that they'll

cook as quickly as the flowerets and, so that you won't end up with a mish-mash of overcooked flowerets and undercooked stalks. And, don't overcook broccoli; let it retain its crisp texture.

Here's an easy dish, using fresh or frozen broccoli (I prefer the fresh sort). Here's:

BROCCOLI SWISS STRATA

This is a strata, or layers of ingredients, which cooks into something resembling a lazy-day souffle or puffy omelet, that is, most of the time. If it sinks in the middle, call it "Fallen Angel Souffle" or whatever else you can think of on the spur of the moment.

8 slices bread of your choice, on the firm side
1 cup shredded Swiss cheese
2 cups broccoli, cooked, drained and chopped (or same of frozen broccoli)
4 large eggs

2 cups milk
Dashes of pepper, hot pepper sauce, salt to your taste
Parmesan cheese for topping
Arrange four slices of bread (crusts removed if you wish) in a lightly greased square baking dish, and sprinkle with half the cheese and half the broccoli. Repeat the layers. Whisk together the eggs, milk and seasonings, and pour evenly over the top, then sprinkle liberally with Parmesan.

At this point, I prefer to refrigerate the whole business for a few hours or overnight, though you may cut the time down to an hour or so, if you're pressed for time; but it puffs up more with longer refrigeration and that's the way I like it. At any rate, bake the dish in a 350 degree oven or an hour or until the proverbial knife comes out clean when inserted into the center. (4 servings)

African wildlife photos featured at Diamondhead

Special to the Echo
On Monday, Oct. 5, at 7 p.m. in the Diamondhead Community Center, The Diamondhead Art Guild in conjunction with Diamondhead Photo Studio and ESI Marketing will present a major exhibition of three outstanding photographic artists.

Featured will be African wildlife by world renowned photographer, Gerald Hinde.

Hinde received first place honors for his photograph of elephants and lion titled "Thunderstorms" at the Earth Summit in Brazil. The only copy of this work currently in the United States will be on display at the exhibit. Other honors awarded to Hinde include the 1991 AGFA Award and the 1992 BBC Wildlife Photographer of the Year. He has also published two books detailing his experiences in the African bush and depicting many of the animals there.

Along with Hinde's photographs, two slide presentations by local photographers Luis Cordova and Skip Alfonso will be presented along with displays of their works.

Cordova's work has been featured on the cover of the Bay Waveland Telephone Directory and has won honors in such prestigious events as 1991 Professional Photographers of America Miss Photogenic contest.

The exhibition will be on display for one evening only and is free to the public. "This exhibition promises to offer a unique opportunity for Coast residents to experience the magic and majesty of African wildlife and to gain knowledge in the appreciation of photographic art," said an Art Guild spokesman.

Diamondhead Garden Club

The Diamondhead Garden Club met September 16 at the Diamondhead Community Center. Special projects were briefly reviewed including civic development, beautification of the grounds of the Fire Department, the Blue Bird project (to place blue bird nesting boxes on the golf courses and care for them), care of the Memorial Garden, and continuation of work to increase the number of individual wildlife habitat areas.

Gerri Garberg gave the tips of the month for the garden including staking of chrysanthemums; starting compost piles; planting African daisies, larkspurs, California poppies, sweet peas and alyssum. She also gave tips on taking care of azaleas, and noted now is the time to divide day lilies and also time to start the fall vegetable garden.

Marion Kollasch, club librarian, told members about the many books in their library and showed a number of the books, including two new editions, *Gardening in Small Spaces* and *Flowers and Gardens, American Country Living*.

Annette Saucier introduced guest speaker John Davis, area Horticulture specialist, an associate of the Cooperative Extension Service.

Davis spoke about the care of trees and shrubs and maintaining good lawns with minimum work. He answered many questions from the audience relating to the problems associated with the work needed for the gardens.

He gave information about spraying and mulching in the yard and gardens. He also informed the group that Diamondhead is now in the lower limits of Zone 8 rather than in the upper limits of Zone 9.

Brierley Acker, president, announced that the Garden of the Month was awarded to Mr. and Mrs. Richard Sobacki at 88400 Diamondhead Drive East. The Golf Course Garden of the Month went to Mr. and Mrs. Joseph Bourgeois at 798 Ewa Court on the Pine Course at #4.

Rocks to play at Picayune Friday

BY ELLIS CUEVAS
An improving St. Stanislaus Rock-A-Chaw high school football team travels to Picayune for a conference tilt Friday.

Stanislaus fielding a very young inexperienced team, winless this season, has improved its play each game.

Head coach Ken Lyons said, "I am happy as we are feeling optimistic about this week. Since last Friday we had our best practice of the year."

"The morale of the team is very good, it has even improved, as our kids believe in themselves," Lyons added.

Stanislaus in a losing game last Friday to East Central at Hurley had a very good first half.

Good news for the Rocks this week will be the return of sophomore Nathan Middleton, who is scheduled to start at quarterback.

Middleton at quarterback gives the Rocks a new look, as Jeffrey Bishop moves from quarterback to split end, and the combination was successful in the Bay High game until Middleton was injured.

Lyons indicated the combination of Middleton at quarterback and Bishop at split end gives the offense an advantage.

QB pass

SSC quarterback Jeffrey Bishop, right, No. 12, tosses a pass as he is protected by Brandon Benoit, No. 23; Stanley Chapman, No. 33; and Matt Wilty, No. 73. Stanislaus played a good first half before falling to East Central by a 36-13 score Friday. Tomorrow, the Rock-A-Chaws travel to Picayune. (Echo staff photo by Ellis Cuevas)

Last week Middleton, not 100 percent as yet, entered the game against East Central for a few plays at split end.

Sophomore Brandon Benoit ran for some good yardage last week against East Central and had a very long gainer called back because of a holding

penalty. Senior Stanley Chapman ground out some tough yards in addition to his longest gain of the season.

Lyons appears to be looking for a game where there are no mental mistakes which have

hurt the Rocks in previous games.

He closed the interview by saying, "Everything is in the positive."

Kick-off is set for Friday night at 7:30 p.m. in the Picayune stadium.

Tigers take on Purvis Tornados

BY RANDY PONDER
The Bay High Tigers will travel to Purvis Friday night to face the Tornados in high school football action.

Purvis defeated the Vancleave Bulldogs, 14-13, in overtime last week for their first win in two years.

The Tigers lost a heartbreaking last week, falling to state champion East Marion, 10-7, on a 31-yard field goal with only five seconds left in the contest.

It was Bay High's first loss of the year. The Tigers are 3-1 overall and 1-1 in District 8, Class 3-A. Purvis is 1-3, overall and 1-0, district.

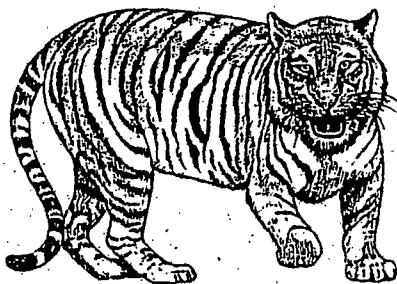

"Although we played well defensively and on special

teams, we did not play good enough on offense to win the game," Tiger coach Rocky Gaudin said of his team's effort against East Marion.

resulted in our only touchdown of the contest. The defense was led by Brenan Compretta and Dwayne Antoine," Gaudin added.

Xavier Lewis has recored three TDs, one rushing and two receiving. Teammates Dwayne Lewis and Marcel Whavers have two touchdowns apiece, all on the ground.

Kick-off for this district match-up is set for 7:30 p.m.

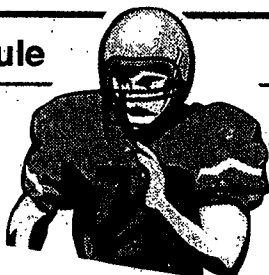

"Highlights of the game include two blocked punts, both recovered by L.C. Curry. One

Quarterback Sam Sheppard is leading the conference in touchdown passes with four.

Hawks battle Warriors

BY JACQUI COCHRAN
The Hancock Hawks will be entering enemy territory this week, traveling to d'Iberville High School for combat against the Warriors.

According to HHS head coach Irvin Favre, this may be the game which eventually decides which team makes it into district playoffs.

Favre said, the Warriors were picked in a pre-season poll to finish in the district as one of the top two.

"What makes d'Iberville so strong," Favre explained, "is the experience of 18 returning seniors."

"Basically, these kids have played together since junior high and they have stayed intact."

"Of the 18 returning seniors, nine are on offense. They are a multiple offensive team, mean-

ing they can run inside, outside and throw the football.

"The Hawk defense is going to have to play an excellent game if they expect to control the ball."

"The Warrior defense will also present some problems."

"They run a four-man front led by Eric Oehms, a 6'1", 230-pound senior defensive tackle who is a top prospect on the Coast."

"They have some good football players. They are aggressive and tend to swarm to the ball and they will play down to the wire."

"Don't let their 2-3 season record fool you. All three of their losses were against the 5A teams of Gulfport, Ocean Springs and Harrison Central."

Favre reported the Hawks are well aware of the importance of Friday's match.

He said, "I don't want to reveal all our secrets, but we are studying films and trying to prepare for a battle."

"We have played really well the last two games. Every week we try to become a better football team, and so far they are doing just that."

"I know our kids will play well and give a good account of themselves, so Friday's game should be quite exciting."

Favre stressed the need for HHS fans to show up in support of the Hawks, as fan support means a great deal to the players, he said, especially when in enemy territory.

This game will be the Warriors first district game and the second for the Hawks. Hancock stands 3-1 for the season, and 1-0 in district. The game begins at 7:30 p.m. at d'Iberville High School stadium.

FISHIN' Y'ALL

By Jim Maness

Fishermen left empty-handed after rains last week

It's time to go fishin' y'all. The turtle has said in the past that the best place to catch fish is in the water. When he said that, he was taking about water that was already standing. No mention was ever made about water coming down from the sky.

No matter how hard I tried this past week, I could not see any fish in the rain that came down almost all week. So I guess the turtle must be right in saying that you can only catch fish in water that is already standing. So don't try to catch "sky" fish, they don't exist.

As you can surmise, the fishin' this past week ranged between terribly awful and awfully terrible.

I have no reports of anyone catching any fish.

On the bright side, quite a few reports have come in of good catches of shrimp along the seawall. This means that quite a few cans of Cozy Kitten have been used this past week.

For those folks who don't get the significance of Cozy Kitten—let me explain.

The best way to catch seawall shrimp is to chum or bait them to concentrate them into an area so that when you throw your cast net you increase your chances of catching shrimp. Makes sense, doesn't it?

Well, one way to concentrate and draw the shrimp to your section of the seawall is to take a few cans of inexpensive cat food like Cozy Kitten, punch holes in the can, and throw the can in the water. Once the can is in the water, the shrimp pick up the aroma of the cat food and think that it is supper time. They beat a trail, post haste, to the spot. The process is called "chumming." It works.

I guess there are as many ways and types of chum as there are people to use the process.

4-0 Wildcats face undefeated Itawamba

Two of the three remaining undefeated Mississippi Community College teams will battle Thursday in Fulton.

The 4-0 Pearl River Wildcats will take on the 4-0 Itawamba Indians in a 6 p.m. clash of the best in Mississippi and the nation.

This past week PRC upended the Jones Bobcats 54-8 at home while Itawamba slapped East Mississippi 30-0. It's the best start for the Wildcats since the early 4-0 record in 1986. PRC finished that year 7-3 overall.

Both PRC and Jones entered the contest 1-0 in the South Division. "It was a complete team win," said Willie Coats of PRC.

The Wildcats scored on the

second play of the game and it was downhill for the Bobcats after that. The Wildcats led 20-0 after the first quarter and 34-0 at the half.

Coats emptied his bench in the second half and PRC was still able to put 20 points on the board.

Pearl River entered the Jones games ranked 20th in the nation by the J. C. Gridwire. The Saturday performance should also enable the Wildcats to break into the top-15 in both the Gridwire and NCAA. The 54 points against Jones is the most ever scored against the Bobcats. The 46-point spread matches the difference of the 48-2 1973 victory.

Itawamba has been ranked

in the top 10 in the nation since pre-season and has moved up to the Number 7 spot in the NCAA rankings. The Indians were No. 15 in this past week's Gridwire.

"The Indians will be our toughest test of the season," said Coats. "They are a well coached team with at least nine major college players on the roster."

Itawamba quarterback Shawn Young leads the state with most completions, while averaging 175 yards per game in the air.

Coats said his Wildcats are at another distinct disadvantage. "They played last Thursday which gives them a little extra

rest time," said Coats. "We play there and that's definitely a plus for them."

In the past the north-south match has been explosive. That may change this year as both teams have extremely tough defenses.

The Wildcats have allowed 37 total points on the year while Itawamba is giving up just 33. The Indian defense has allowed less than 100 yards rushing in the first four games, while PRC has rushed for 1100.

PRC has scored 106 points and Itawamba 118. "It will be a test," said Coats. "It's what I call a set-up game. The opposition has every advantage possible."

Coats said the same thing two weeks ago, but PRC wound up beating the Holmes Bulldogs on the road 10-0. "I hope we are ready mentally as well as physically," Coats said.

Slot back Valdez Gaddis will miss action with a shoulder separation. Everyone else should be ready for action.

Bay Football League to sponsor Jamboree

BY ELLIS CUEVAS

The Bay Youth Football Association will sponsor an all-day youth football jamboree Sat., Oct. 3, at J.D. McCullough Stadium.

There will be three different age groups of teams competing in the jamboree, with play beginning at 9 a.m.

Teams from Bay St. Louis, Gulfview, Hancock Elementary, Pearl River Central, Ocean Springs and Biloxi are scheduled to play.

The Bay Youth Football League consists of five teams, one 7- and 8-year-olds; two 9- and 10-year-olds; and two 11- and 12-year-olds.

Earl Fayard, Bay commissioner said, "Each of the five Bay St. Louis teams will play

one game in the jamboree throughout the day.

"Admission for the day is only \$1 for adults and 50¢ for students. The league will have a concession stand serving hot dogs, hamburgers, soft drinks, candy and chips, etc.," Fayard added.

Last year, one of the Bay St. Louis 9-10-year-olds teams was 14-0 and the Coast champ.

Fayard reports all five teams in the Bay League appear to be very strong, and we could have several Coast champs from the Bay.

Practice for the league is Monday through Wednesday, 4:30 to 6 p.m. in the parking lot

in front of McCullough Stadium.

Sponsor for the league is the City of Bay St. Louis; team sponsors are the City of Waveland, American Legion Post No. 139, Alcan Cable, and All State Insurance (Snuffy Smith).

Among the local coaches are, Frank Perniciaro, Jay Cuevas, Fred Peterman, Phillip Eubanks, Gus McKay, and Joe Fannin.

The teams also receive support from some 50 cheerleaders.

Cheerleaders, like the players, attend North Bay Elementary, Bay Catholic, St. Clare, Waveland Elementary or Bay Middle School.

College Football Highlights

For October 3

After three games on the road to open the 1992 season, Mississippi State finally gets a chance to perform in front of the home folks. Last year's Southeast Conference champion Florida, with a week off after its 31-14 loss to Tennessee, will be the other half of the attraction on Thursday night. The Gators were undefeated in the league last fall, losing only to Syracuse outside the conference. The Bulldogs still have high hopes in spite of a surprise 24-3 setback three weeks ago at the hands of LSU. Florida whipped State last fall 29-7, and we favor the Gators again this week.

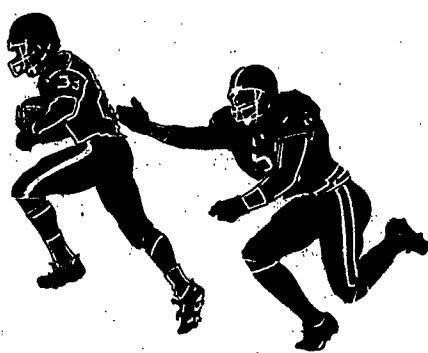

One of the real biggies of the season will take place in Miami Saturday as 1991's undefeated Hurricanes entertain Florida State. The Seminoles lost only two games last fall and both were to intra-state rivals. Miami nipped them 17-16 and they lost to Florida 14-9. Florida State has already beaten last year's Atlantic Coast Conference champion Clemson and Miami whipped Iowa in the season opener. The nod again this year goes to the 'Canes.

Southern California is another team that opens with three straight games on the road. The Trojans were tied by San Diego State (and almost lost it)—then surprised Oklahoma two weeks ago—and now they travel to Seattle to take on our 1991 national champion Washington. The Huskies just finished a big tussle of their own as they beat Big Eight champion Nebraska, 29-14. Washington beat Southern Cal last season 14-3. The Huskies are favored.

And Iowa, 10-1 in 1991, gets another toughie, its fourth in five games. This Saturday it's Michigan at Ann Arbor, and it should be the Wolverines all the way.

Our picking percentage, through games of Saturday, Sept. 19, fell to .728 based on 415 right and 155 wrong.

Texas A & M is favored over Texas Tech. Notre Dame will beat Sanford, and LSU will lose to Tennessee.

NFL Forecast for Sunday and Monday, Oct. 4-5

****Atlanta, 24—Green Bay 13**

In match-up last fall, Packers led 28-14 in 4th quarter. Lead changed hands twice before Falcon QB Chris Miller threw TD pass in last 41 seconds for winning 35-31 margin.

****Buffalo, 31—Miami, 17**

Bills have won 10 of last 11 games vs Dolphins, including series sweep last fall. Both were exciting high-scoring contest, Bills winning 35-31 in Buffalo, then 41-27 in Miami.

Broncos slipped by Chiefs twice last season, beating them 19-16 in Denver with FG in final 3 minutes, then winning 24-20 in K.C., Chief QB Steve DeBerg throwing four interceptions.

****Minnesota, 21—Chicago, 20**

Vikings dropped both games to Bears in '91, losing defensive struggle in Chicago in season opener 10-6, then losing at home in Monday niter 34-17, Neal Anderson scoring 2 Bear TDs.

New Orleans, 17—Detroit, 16**

In last meeting between these two in 1990, Lions upset Saints in N.O., capitalizing with 17 unanswered points in 2nd half to win 27-10, in great match-up in Detroit—New Orleans.

New York Giants, 23—L.A. Raiders, 20**

Teams last met in N.Y. in final game of 1989 season, Giants winning 34-17, clinching NFC East title, tied 17-17 at half time, N.Y. bounced back with 17 points in second half.

****New York Jets, 20—New England, 10**

Teams played two different types of games in 2-game match-up last fall. Jets won in Foxboro 28-21 holding Pats on 1-yard-line as time ran out. Pats won FG game in N.Y., 9-6.

****San Diego, 20—Seattle 17**

Each team won at home last season, Seattle scoring 10 points in 4th quarter to pull away from Chargers 20-9. S.D. edged Seahawks 17-14 on team-record 54-yard FG in last 18 seconds.

****San Francisco, 30—L.A. Rams, 10**
49ers dominated Rams last fall. In first meeting, S.F. scored 17 points in 2nd half after 10-10 tie to win 27-10. In second game, 49ers held 30-0 halftime lead, winning 33-10.

Washington, 27—Phoenix, 10**

Cards last beat Redskins in 1988, Washington winning 14 of last 15 meetings. Skins won at home in 34-0 wipeout in September last fall, then 20-14 in Phoenix after trailing 14-0.

****Philadelphia, 30—Dallas, 23**

(Monday) Eagles had won 8 in a row over Cowboys including 24-0 shutout in first match-up last fall. Dallas, on the road, used Eagle-type "sacking defense" to pull big upset, winning 25-13.

THE SEA COAST ECHO—THURSDAY, OCTOBER 1, 1992-1B

PHOTOS AND TEXT
BY JACQUI COCHRAN

Wind worshipers

Bay St. Louis shores favored by wind surfers during fall and winter months

Blustery days along the Coast this week brought out five wind surfers to the shores of Bay St. Louis.

"We come over here when the north wind blows," Tom Wittmann of Gulfport stated. "During the summer months the surfing is better on the Pass Christian side."

The five men did not know each other; they all chose the same spot because it was a good day to wind surf.

Most of the five had escaped from the route of work for a few hours.

Eddie Michna and Matt Findley, both of Slidell, said they prefer the waters off the Mississippi Coast to the lakes of Louisiana.

Locals, Mike Jones and Jeffrey Gex, wasted no time in entering the waves. Like two old fishermen who knew their spots, they were assembled and up in no time.

Wittmann, owner of a wind surfboard outlet, told of the dangers the shores of the Mississippi Sound present.

"I always tell people to surf with someone. Just last year a man was wind surfing along here and his sail broke away from the board. He tried to paddle in on the board, dragging the sail along, but a current pulled him under the Bay bridge. He let go of the sail, but it was too late. The current had

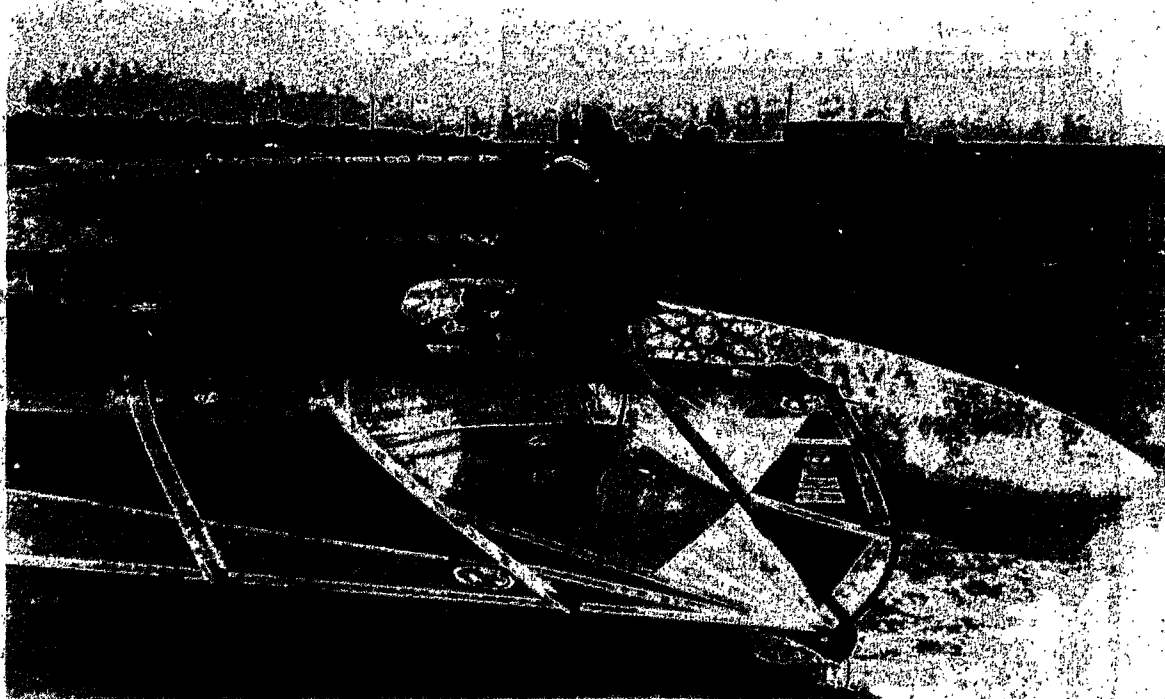

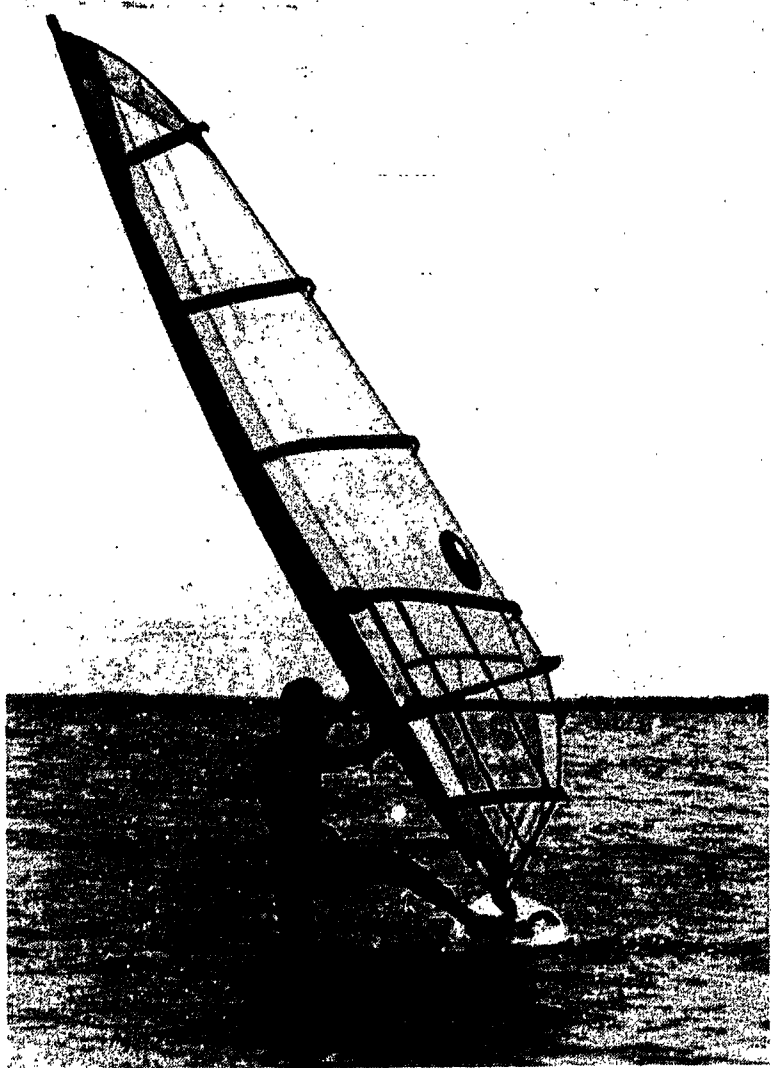

pulled him way out and under the train tracks.

"He said his arms were giving out from paddling when he saw some figures on the St. Stanislaus pier."

"Fortunately, some guy saw him and sailed a boat out to pick him up. Good thing they saw him, or otherwise he may have gone out into the Gulf."

Wittmann added that he did not want to discourage anyone from wind surfing, but people need to be aware of the dangers of being in the water at all times, whatever the sport.

"Other than that," he commented, "It is the greatest!"

Lakeshore playground inches towards reality

County employee, Jimmy Travirca Sr., operates a front-end loader at the future site of a Lakeshore playground. Richard "Pat" Patterson, local resident and development initiator, reported, "Depending on the weather, we expect the area to be ready by the middle of next month." Patterson said the area, a triangular area, measuring 1,185'x 828'x 1,239'x 465' corners at Lakeshore Drive and Lower Bay Road. Upon completion it will contain a basketball court, running parallel with Lower Bay Road; a pavilion area; a volleyball court; and playground equipment/Jungle Jim construction. Patterson donated the fencing for the enclosing of the grounds. The Hancock County recreation department is financing the project at an estimated cost of \$18,000. Education tips offered on video

"The Gift of Learning," the award winning video aimed at increasing parents' involvement in their children's education, is now available at the Hancock County Library System.

The 20-minute video is being targeted for the states of Mississippi and Louisiana, based on their last or near bottom status on most educational yardsticks.

"We looked at education in the South and saw the tremendous need—to teach parents who have never been taught to be parents," said Jim Brewer, president of Associated Consultants in Education.

The 20-minute video gives parents 10 ways to get involved in their children's education.

Partnerships in Education Journal, a national monthly, chose the video as the best among hundreds of entries in the involvement category.

Parents who have seen the video said they are convinced it can make a difference in the quality of education.

Further information on obtaining the video is available by calling the City-County Library at 467-5282.

Keeping the child alive

A DIFFERENT VIEW

By Traci Bonney

Some things you never outgrow.

Every one of us, whether we like it or not, has this kid inside that will never grow up.

Think about it. Aren't there some things in your life that have been with you since you were a child? I'm not talking about hurts and anger and grief, although most of us do lug that stuff around far longer than we ought.

It's those things, in fact, that force us to pretend to be mature when we feel like throwing a kicking, screaming fit or curling up in a corner with a teddy bear and crying our eyes out.

I'll tell you right now, I've been hauling some of that garbage around for a long time. There have been times I felt like a six-year-old inside when I was in a situation that called for a mature, level-headed adult. But thankfully, I'm getting rid of that stuff.

Anyhow, back to the subject. I'm writing today not about what keeps us from being the adults we're meant to be, but what keeps us in touch with the kid inside.

For instance, I still like comic strips, cartoons and animated movies. For those scoffers out there, most of that humor is

beyond the level of the typical seven-year-old, so who are these people writing it for, if not us adults?

I also like "happily ever after" stories, getting ice cream at the mall, giggling at things that aren't sophisticated in their wit, watching squirrels, looking for constellations, finding shapes in the clouds.... You get the idea?

I never want to "outgrow" the ability to enjoy simple things, to marvel at the beauty and complexity of God's creation, or to want something just because it's pretty and makes me smile.

A certain very wise man once said that our childlikeness is vital to our wellbeing in this life and beyond.

He wasn't saying we need to, or even should, be like Peter Pan, eternally flying around in some imaginary Neverland. But he was saying we shouldn't be like Peter Banning — for those of you who saw "Hook" — and lose touch with the childlike wonder that keeps our hope, our creativity, our appreciation of miracles, alive.

So, as I said, there are some things I'll never outgrow. It would be a sin if I did.
